

INNOVATIVE DESTINATION MARKETING SOLUTION

Visit Widget is an advanced, cross-device application that creates an engaging and intuitive way for visitors to research, plan, and experience their visit to your city. Ideal for CVB (Convention and Visitor Bureau), DMO (Destination Marketing Organization), and tourism boards, our platform focuses on giving your visitors an intuitive and engaging way to experience your destination.

Web, mobile, and optional kiosk interfaces provide multiple touch-points for your visitors to plan their trip. The Visit Widget SaaS Platform integrates seamlessly with your existing site to sync content updates and has an intuitive administrative user interface. Take an in depth look at the application below.
