

# CENSUS OF MISSOURI PUBLIC WATER SYSTEMS 2025

Missouri Department of Natural Resources  
Division of Environmental Quality  
Water Protection Program  
Public Drinking Water Branch

## PREFACE

The Missouri Department of Natural Resources is pleased to publish the 2025 edition of the annual Census of Missouri Public Water Systems. This publication provides detailed information about Missouri public water systems including information regarding supply capacity, source water type, population served, select monitoring results, and types of treatment being used. The department hopes this publication will serve as a useful reference for anyone needing information about a Missouri public water system.

While the Census provides summary information about individual water systems, additional resources are also available. Our Annual Compliance Report of Missouri Public Drinking Water Systems lists violations by individual water systems as well as statewide data for the calendar year and is available at: <https://dnr.mo.gov/water/how-water/water-we-drink/drinking-reports/compliance>

In addition, the complete results of all the chemical analyses taken at public water systems are on file at the office of the Missouri Department of Natural Resources' Public Drinking Water Branch. This information is also available online on our Drinking Water Watch webpage and can be viewed at: [https:// www.dnr.mo.gov/DWW](https://www.dnr.mo.gov/DWW)

Also, individuals can learn more about their water system by accessing their community water systems' Consumer Confidence Report at: <https://dnr.mo.gov/ccr>

For questions about this document, you may call the Department's Public Drinking Water Branch at 800-361-4827 or 573-751-5331.

 573-522-3322 FAX: 573-522-3522

## II. STATISTICAL INVENTORY INFORMATION

# **STATISTICAL INVENTORY INFORMATION**

## **INTRODUCTION**

The statistical inventory information section contains two tables. The first table gives the number of regulated systems by region and system type. The second table contains system totals and population totals by source type.

## Number of Regulated Systems By Region and System Type

Region	Number of Community Systems	Number of Nontransient, Noncommunity Systems	Number of Transient, Noncommunity Systems	Total Number of Systems
CENTRAL FIELD OPERATIONS CFO	158	26	278	462
KANSAS CITY REG OFFICE KCRO	244	7	54	305
NORTHEAST REG OFFICE NERO	203	6	10	219
SOUTHEAST REG OFFICE SERO	242	55	177	474
SOUTHWEST REG OFFICE SWRO	386	90	494	970
ST. LOUIS REG OFFICE SLRO	206	38	128	372
<b>Total Systems</b>	1,439	222	1,141	2,802

# Community Water System Populations

Source Type	Total Number of Systems	Total Population Served
<b>Primary Groundwater</b>		
Systems using Groundwater	1,054	1,936,932
Systems using Groundwater Under Direct Influence	3	13,289
<b>Total for Primary Groundwater Systems</b>	<b>1,057</b>	<b>1,950,221</b>
<b>Primary Surface Water</b>		
Systems using Surface Water - Streams	57	2,534,963
<b>Total for Primary Surface Water Systems</b>	<b>57</b>	<b>2,534,963</b>
<b>Secondary</b>		
Secondary System using Groundwater	158	213,077
Secondary System using Groundwater Under Direct Influence	2	16,281
Secondary System using Surface Water	165	919,976
<b>Total for Secondary Systems</b>	<b>325</b>	<b>1,149,334</b>
<hr/>		
<b>Grand Total</b>	<b>1,439</b>	<b>5,634,518</b>

### III. COMMUNITY WATER SYSTEM INVENTORY INFORMATION

# COMMUNITY WATER SYSTEM INVENTORY INFORMATION

## INTRODUCTION

### KEY TO CODES AND ABBREVIATIONS

The community water system inventory information section contains data on community public water systems regulated by the Missouri Department of Natural Resources' Public Drinking Water Branch. A community public water system serves at least 15 service connections and is operated on a year-round basis or regularly serves at least 25 residents on a year-round basis (Missouri Safe Drinking Water Regulations 10 CSR 60-2.015). These systems include, but are not limited to, cities, water districts, subdivisions, mobile home parks and institutions.

Community water system inventory information provides basic information such as the required water system operator level and the required distribution system operator level, the year the system began providing water, the ownership type, the number of people served and the number of service connections. These systems are divided by type of community into three alphabetical lists. The first list contains city systems, the second list contains water district systems and the third list contains subdivision, mobile home park, institution and miscellaneous systems. This section also provides a list of systems that sell water and whom they sell to, as well as a list of systems that buy water and whom they buy from.

AVG = Average  
MGD = Million Gallons per Day

DISTRIBUTION SYSTEM OPERATOR LEVEL (Listed second, if available under Operator Level, Example: "A1" or "1"):

- 1 – Requires a minimum of one-half year of distribution operations experience.
- 2 – Requires a minimum of 1 year of distribution operations experience.
- 3 – Requires a minimum of 3 years of distribution operations experience.

Both the water system operator level and the distribution systems operator level for community public water systems are classified according to system capacity, source of water, character of water, character of water being produced, complexity of treatment and other physical conditions that may affect a system. The department uses this classification system to determine the certification level necessary for the chief operator to supervise the operation of a facility (Missouri Safe Drinking Water Regulations 10 CSR 60-14.010).

OWNER TYPE: F – Federal Government P – Private  
S – State Government L – Local Government

SOURCE WATER PERCENTAGES:

PCT GRD = Percent of Source that is Groundwater  
PCT PUR GRD = Percent of Source that is Purchased Groundwater  
PCT PUR SUR = Percent of Source that is Purchased Surface Water  
PCT SUR = Percent of Source that is Surface Water  
PCT GW UNDER INFL = Percent of Source that is Groundwater under influence of Surface Water  
PCT PUR GW UND INFL = Percent of Source that is Purchased Groundwater under influence of Surface Water
