Re: Police Vehicle Engine

Issue:

The police department had an engine lock up out of warranty and are requesting to replace the engine. This is one of the vehicles we were going to roll out of the rotation this year but funds were cut. If the engine is replaced the vehicle will replace the black explorer as the part-time officer vehicle.

There are 3 options:

Do nothing. We'll scrap it in the next budget year. Cost - \$0.00

Replace the engine through a Dodge dealership. That would include a warranty. Cost - \$9,746.78

Replace the engine with help from Alliance to install the engine at the Public Works Bldg (Street Shed). Cost - \$5,053.67 + parts.

Recommendation:

We sell it for scrap and move on. The department will have to share vehicles in the interim.

Windage Tray Included	null

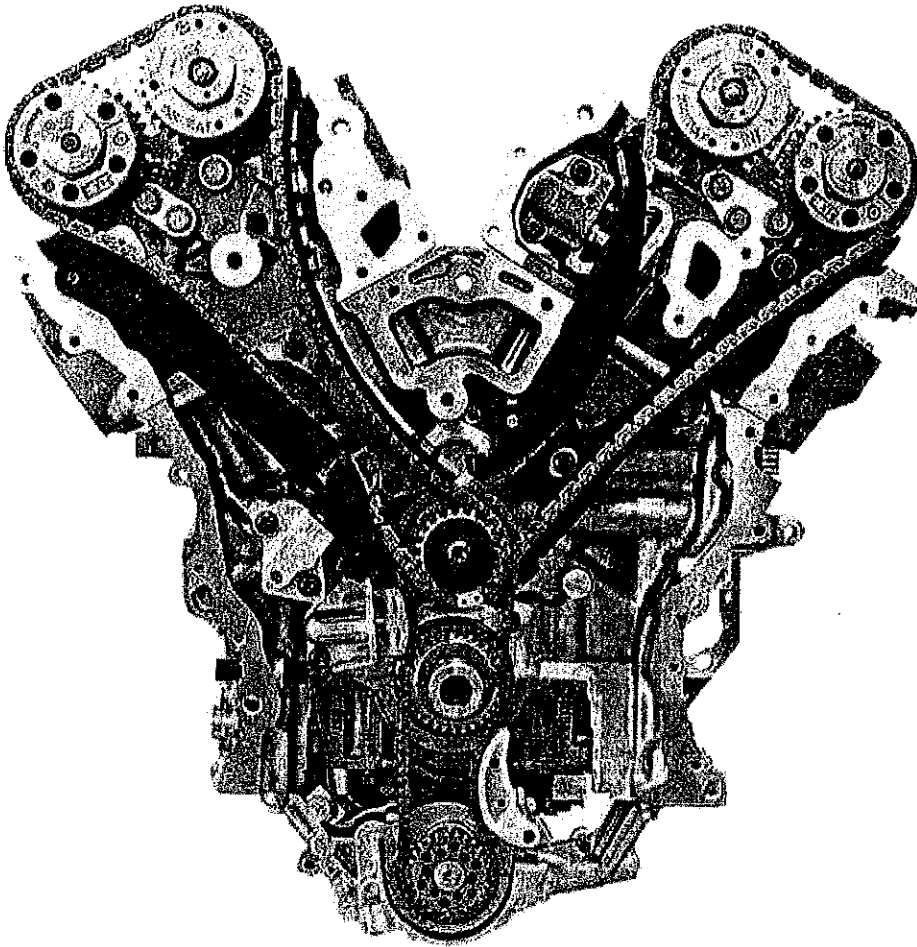

How It Works:

The engine supplies the necessary torque and horsepower that is needed to propel the vehicle down the road. The most popular engines are gasoline and diesel, however some are set up to run on propane or natural gas.

When It Doesn't Work:

Failure can take place for a variety of reasons. Always follow the recommended maintenance schedule to prolong the life of

Re: Sewer Backup

**Issue:**

Alderman Raney requested that Mike James, 770 Point Basse Dr., get a chance to discuss his sewer backup costs from the April 4/5 rains and a request for reimbursement.

We can submit his claim (and others) to insurance but in the past I have seen them rejected due to the nature of the heavy rains and not due to a lack of maintenance and negligence on the city's part. Mr. James may then ask for reimbursement out of city funds.

When a resident has a sewer backup we offer a free backflow preventer they can have installed by a licensed plumber that will protect them from rain swollen sewer mains issues.

Recommendation:

We will submit his claim to insurance and wait for their determination but if rejected the city should not reimburse.
